

Request to Council

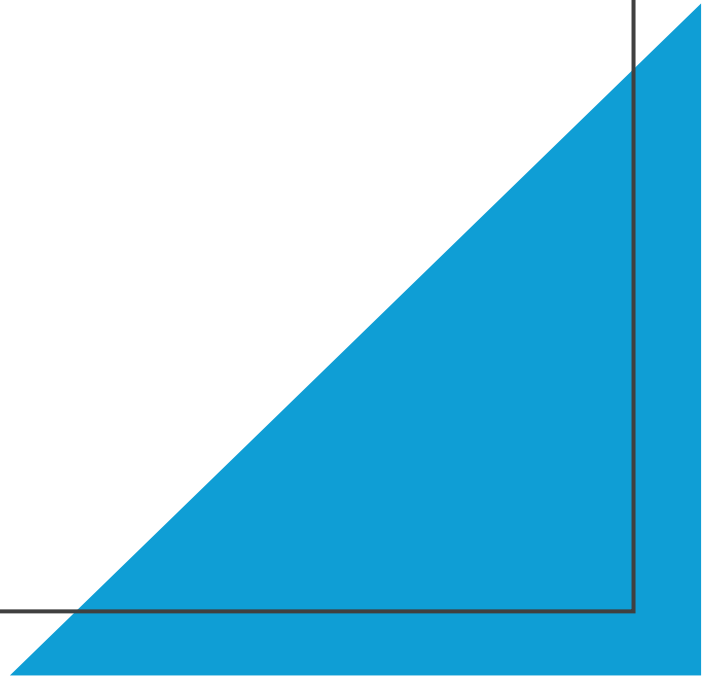

Upgrade of Julian Lake Road to full maintenance status

Donald Linders on behalf of Big Cedar Lake Property Owners

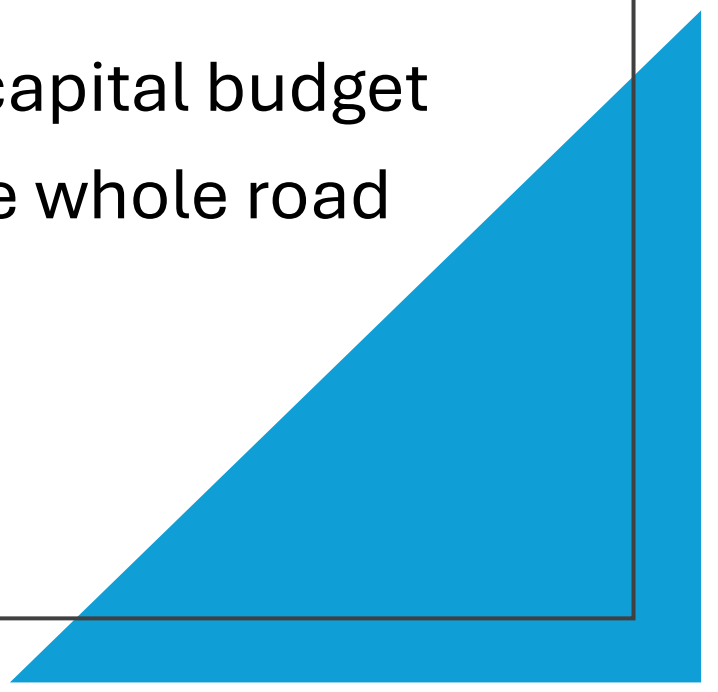

The Request

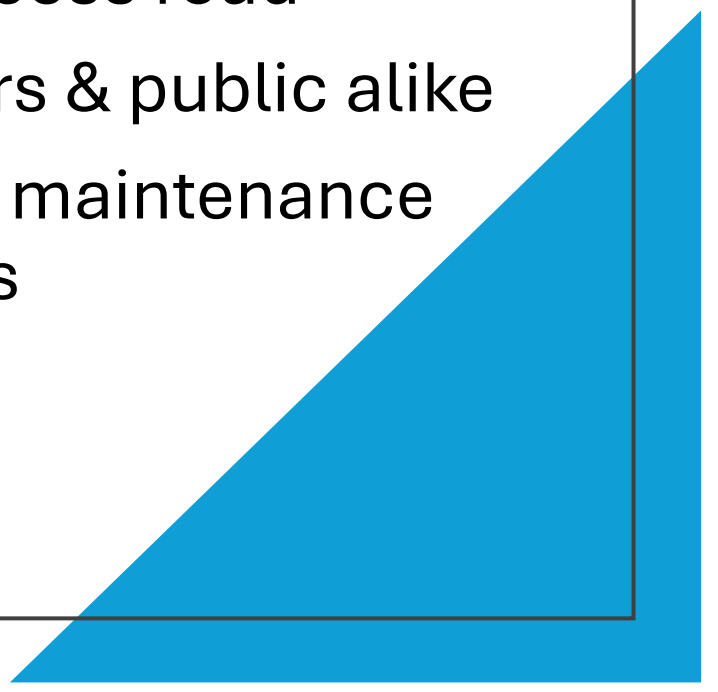

- Upgrade the Julian Lake Road extension to full maintenance status
- Make safety upgrades:
 - Blind corner at Camp Burbalac entrance
 - Reduce the slope on the large, steep hill

The Specifics

1. Initiate the necessary engineering reviews
 2. Include the required funding in Township's capital budget
 3. Pass the necessary by-laws to designate the whole road as full maintenance
 4. Establish and communicate the timeline
- 
- A large blue triangle is positioned in the bottom right corner of the slide, pointing towards the top right. It is a solid blue color and serves as a decorative element.

The Rationale

- Road usage has evolved significantly over the past 30 years
 - Now used as a full time, year-round public access road
 - Sole boat launch for Big Cedar, used by owners & public alike
 - Removal of the financial imbalance for winter maintenance currently borne by only 4 Fire Route 38 owners
 - Increased safety is in everyone's best interest
- 

Thank you.

We understand there are competing priorities, but we feel it is time for this road to be upgraded.
