Resolution No. 75-03-2026

Whereas the Town of Northeastern Manitoulin and the Islands, like many municipalities, utilizes chip-and-tar surface treatment on a significant portion of its road network; and

Whereas the Town has observed a substantial decrease in the length of time these treated roads remain in acceptable condition; and

Whereas the quality and durability of the oil used in the surface treatment appears to be a contributing factor; and

Whereas the Ministry of the Environment amended its regulations several years ago, permitting only lighter-grade oils for environmental considerations; and

Whereas the reduced durability of the lighter-grade product has resulted in more frequent resurfacing cycles and has consequently led to increasing maintenance costs;

Now therefore be it resolved that the Town of Northeastern Manitoulin and the Islands respectfully requests that the Ministry of the Environment reconsider its decision regarding the lighter grade of oil, taking into account the increased number of applications required, as well as the associated additional time, energy, and financial burden placed on municipalities or develops a better alternative oil.

And Further that this motion be forwarded to the Ministry of Environment, AMO, Good Roads, FONOM, MPP Bill Rosenburg, and all other municipalities.
