June 2025

To Ontario's Energy Community:

I'm proud to share that our government has released Ontario's first-ever Integrated Energy Plan: [*Energy for Generations: Ontario's Integrated Plan to Build the Strongest Economy in the G7.*](#)

This Plan lays out a clear path to ensure Ontario families, businesses and communities have the affordable, secure, reliable and clean energy they need – not just today, but for decades to come.

Ontario is growing fast. People are coming here to build their lives, invest in growing industries and create good jobs. That growth is driving record demand for electricity and continued demand for fuels – from homes and transit, to factories, farms and data centres.

This Plan responds with action. It advances the largest expansion of nuclear generation on the continent, accelerates transmission development, maintains access to natural gas and other fuels, and embraces new solutions like distributed energy resources, hydrogen, battery storage and carbon capture. It ends siloed planning by bringing electricity, fuels and natural gas under one co-ordinated vision.

At every step, the focus is on building a more competitive, self-reliant and affordable energy future – while keeping costs down.

Thank you for the role you play in shaping Ontario's energy future. Together, we're building an energy system that will power our economy, support our communities, and provide for our children and grandchildren for generations to come.

Sincerely,

Stephen Lecce
Minister
