Archaeological Assessments

Please note: that through recent consultation with Curve Lake First Nation (CLFN), it has been suggested that archaeological assessments may be required for development on waterfront properties. You will need to complete the attached checklist from the Province for evaluating archaeological potential to determine whether an archaeological assessment is required. This checklist needs to be submitted with any application submitted. Should you determine that an archaeological assessment is required, we would encourage follow up discussion with the Township and Curve Lake to confirm specific requirements.
